

Litigation Blues

Performance notes:

* section A is the instrumental break between verses two and three. In addition, it can also be used as an intro and /or outro for this piece.

** the chords at letter B should be played with a basic folkie / blues strumming pattern.

Additional verses:

Vs. II

When global tragedies happen, my lawyer is first on the scene.

He's not concerned with the victim, he only wants to know who's going to pay his fee.

He sits on the ethics board of the A.B.A.

His solution to all their problems is " to hell with what they say."

Vs. III

Lots of cases today involving parents suing schools.

Some kids are suing their parents, everybody looks like a fool.

Alimony, palimony, it's all the same.

As long as my lawyer gets his money, to him it's just another game.

Vs. IV

He's got his own private practice,

With his name at the top of the door.

He's a pillar in the halls of power,

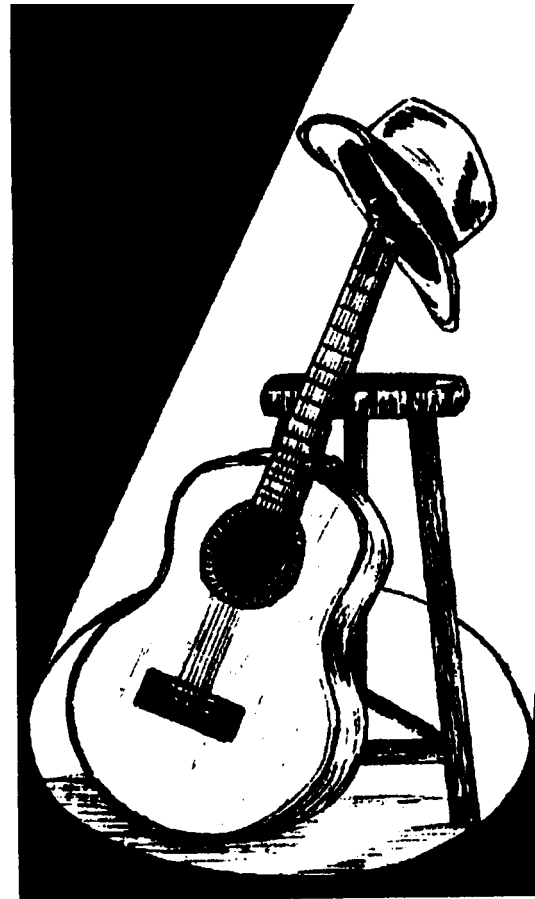

Just like some high price whore.

He was offended when I wrote about him

In this song.

My answer to him was

" sue me if you think I'm wrong."
